Library Recommendation Form

AI EDAM

Quarterly

To Acquisitions Librarian, Serials: ___________________________________________________________

From: ____________________________________________________________________________________

Department: _____________________________________________________________________________

Signature: _____________________________________________________ Date: ____________________

I recommend the library subscribe to AI EDAM (Artificial Intelligence for Engineering, Design, Analysis and Manufacturing) (ISSN 0890-0604). Order by contacting Journal Department, Cambridge University Press, 40 West 20th Street, New York, N.Y. 10011-4211 or through your subscription agent. Sample copy available upon request.

Order Form

AI EDAM

Quarterly

Volume 20, 2006

- Institutions $489/£289 (print and online)
- Institutions $452/£268 (print only)
- Institutions $420/£250 (online only)

- Individuals $150/£92 (print and online)
- Individuals $145/£89 (print only)
- Members $125/£75 (print only)*

* I certify that I am a member of: □ Association for Computing Machinery □ Design Society

Signature: ______________________________________________________________

No institutional checks can be accepted for discounted individual and member rates. Personal check or credit card only. Prices include delivery by air where appropriate. Prices valid through December 31, 2006.

** EU residents only: If not registered and where applicable, VAT will be charged at the appropriate rate. If registered, please supply your VAT registration no: _________________________

Total subscription payment $/£__________________

EU residents only, if not registered, pay VAT at appropriate rate**: £__________________

Canadian residents only, add 7% GST: $__________________

TOTAL PAYMENT $/£__________________

Name: ________________________________________________________________

Address including zip/post code: __________________________________________

E-mail: ______________________________________________________________

Payment enclosed: □ Check payable to Cambridge University Press in pounds sterling, US dollars or equivalent in Canadian dollars (please send to the appropriate address below)

□ Visa □ MasterCard □ American Express

Order Number: __________ Date: __________

Signature: ______________________________________________________________

Please state address registered with credit card company if different from above: ______________________________

□ Please check here if you do not wish to receive mailings from other organizations

□ Please check here if you do not want to receive further mailings from Cambridge University Press

Printed in the USA

AIE 06 A B C

Orders in the USA, Canada, and Mexico, with payment in US or equivalent in Canadian dollars, should be sent to: Cambridge University Press, 40 West 20th Street, New York, NY 10011-4211, USA.

Tel: 1-800-872-7423 • Fax: 1-845-353-4141

Orders Elsewhere, with payment in pounds sterling, should be sent to: Journals Marketing Department, Cambridge University Press, FREEPOST*, The Edinburgh Building, Cambridge CB2 1BR, UK.

Tel: +44 (0) 1223 326070 • Fax: +44 (0) 1223 315052

Email inquiries: journals_marketing@cup.org

Web: www.cambridge.org

*No stamp necessary if posted within UK

Included in Cambridge Journals Online!

Editor: David C. Brown, Worcester Polytechnic Institute

Artificial Intelligence for Engineering Design, Analysis and Manufacturing
AI EDAM: Artificial Intelligence for Engineering Design, Analysis and Manufacturing is a journal intended to reach two audiences: engineers and designers who see AI technologies as powerful means for solving difficult engineering problems; and researchers in AI and Computer Science who are interested in applications of AI and in the theoretical issues that arise from such applications. The journal publishes original articles about significant theory and applications based on the most up-to-date research in all branches and phases of engineering. Suitable topics include: analysis and evaluation, selection, configuration and design manufacturing and assembly; and concurrent engineering. Specifically, the journal is interested in the use of AI in planning, design, analysis, simulation, qualitative reasoning, spatial reasoning and graphics, manufacturing, assembly, process planning, scheduling, numerical analysis, optimization, distributed systems and multi-agent applications.

Areas of special interest include:
• knowledge-based (expert) systems for engineering, including knowledge acquisition, knowledge representation, and system architectures;
• theoretical work on the modeling of engineering problem-solving and design processes;
• the integration of AI-based techniques with numerical analysis tools, graphics and solid modeling packages, and engineering databases;
• distributed design, theory and application.

AI EDAM is also interested in original and major applications of state-of-the-art knowledge-based techniques to important engineering problems (titled 'practicum papers'). In addition to the rapid publication and dissemination of unsolicited research papers, AI EDAM is committed to producing special issues on topics that are viewed as both important and timely.

AI EDAM is indexed in Compendex Plus, SciSearch, Research Alert, and CompuMath Citation Index.

Volume 19, Number 1, Winter 2005
ARTICLES
Ontologies for supporting engineering analysis models
Ian R. Grose, John M. Milton-Benoi, and Jack C. Willems
Information generation during design: Information importance and design effort
A.J. Denton
PRACTICUM PAPERS
Heuristic to optimize L-guillotine cutting operations
Alberto Gómez, David De La Fuente, Pedro Prieto, and Javier Puente
Solutions for product configuration management: An empirical study
Jinn-Yi Yeh and Tai-Hsi Wu
Engineering industry controllers using neuroevolution
Nahid M. Hewabi

Volume 19, Number 2, Spring 2005
SPECIAL ISSUE: ENGINEERING APPLICATIONS OF REPRESENTATIONS OF FUNCTION, PART 1
GUEST EDITORIAL
Engineering Applications of Representations of Function, Part 1
Robert R. Stone and Amarendra Choudhary
ARTICLES
Representing function: Relating functional representation and functional modeling research streams
B. Choudhary
Functional reasoning theories: Problems and perspectives
Bebroas Homayoun Far and A. Halim Elamy
A model of function-based representations
Michael Van Wie, Cari R. Bryant, Matt R. Robu, Daniel A. McAdams, and Robert R. Stone
A functional representation for aiding biomimetic and artificial inspiration of new ideas
Amarendra Choudhary, Prabir Sardar, B. Leedavathammenu, and B.S. Nataraja

Upcoming Special Issues
IN 2006
Vol. 20, No. 2, May 2006 - Design Spaces the Explicit Representation of Spaces of Alternatives
Guest Editor: Rudi Stouffs
Vol. 20, No. 3, Aug 2006 - Understanding, Representing and Reasoning about Style
Guest Editors: Claudia M. Eckert and Ellen Yi-Luen Do
Vol. 20, No. 4, Nov 2006 - Designing with Constraints
Guest Editor: Barry O’Sullivan

PART OF CAMBRIDGE JOURNALS ONLINE
Cambridge Journals Online (CJO) provides access to well over 190 Cambridge journals, covering some of the world’s best scholarship in a wide range of subject areas.

FEATURES INCLUDE:
• Easy access: access control for institutions by IP addresses or domain
• Personalization: users can modify the service to suit their own needs, creating direct links to articles and storing previous searches
• Superb searching facility: provides powerful capabilities for searching by title, by subject, by keyword(s), within a particular title, a range of journals, or across the entire CJO service
• FREE access to all tables of contents and article abstracts

Further information about upcoming Special Issues and Instructions for Authors is available at: http://www.cs.wpi.edu/~aiedam/
The editor’s email address is: aiedam@cs.wpi.edu
