

Project 2 - Hidden Processes

Total: _____

Name 1: _____

(**Name 2:** _____)

(**Name 3:** _____)

1) Hiding support (70 points): _____

- Properly added system calls
- Modification to root.c
- Code in hide.c, hide.h
- Code in user level hide header file (hide-user.h)
- Proper modification to Linux source tree (Makefiles)
- Initializations at boot time (if needed)

2) Scan module (25 points): _____

- Loads and unloads without error
- Handles process with small read buffers
- Handles arbitrarily long list of processes

2) Answers to questions (5 points): _____

3) Other bugs, comments, days late, etc (could lose points here):
