## 2- *ocr-reader-start App*

```
No resource found that matches the given name (at 'value' with value '@integer/google_play_services_version').
```

To fix the error:
   1- add the following to the dependencies{} block in build.gradle:

```
compile 'com.google.android.gms:play-services:+'
```

   2- Clean project and then Rebuild project from build menu
