TravelDiary-Introduction

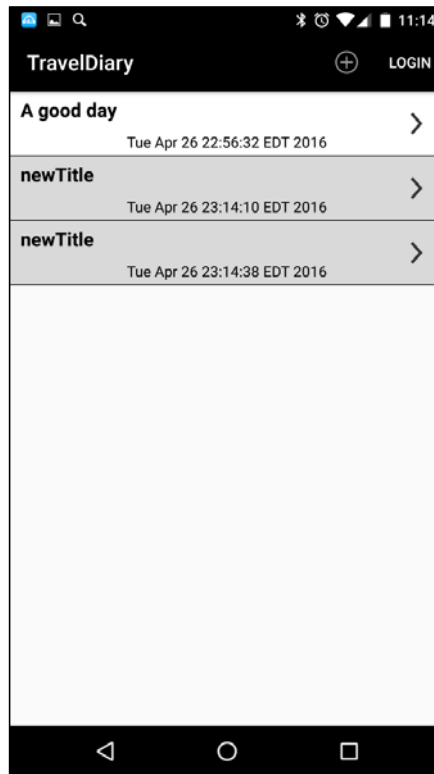

- TravelDiary is an application that can be used as diary while traveling.
- It automatically tracks your traces and photos in the background.
- You can post your diary on Facebook at the end of day.

DiaryDetailActivity

TravelDiary-To learn

It's an application that **YOU DON'T NEED TO CARE ABOUT** in travel

- You create a diary, than you can totally forget about it in travel
- It refreshes location every few minutes to save power
- In the end of the day, you type in your diary, and post on FB
