Advanced Computer Networks
Course Objectives

• To uncover and understand the *current directions* of computer networks from literature readings.

• To expose students to the “full span” of the computer network’s frontier *{a breath goal}*.

• To encourage a *performance perspective* towards analysis of computer and communications networks.

• To “fill-in” gaps in students’ networking knowledge.
Advanced Computer Networks
Course Objectives

• To refine research skills
  – to advance skills of literature searching and literature review.
  – to learn to analyze and evaluate published results.
  – to improve communications skills
  – to include information available through the Web
