Reporting directly to the CEO and collaborating with staff and advisors for the business, the role's responsibilities will include:

- Maintaining the existing ruby-on-rails application
- Upgrading gems and improving the underlying architecture
- Implementing new features and testing these with extended team
- Deploying the updates to the application
- Collaborating with the product team to identify, prioritize and deliver enhancements to the platform
- Improving integrations with third-party solutions

Qualifications:
- Undergraduate upperclassmen and graduate students are sought
- An understanding of golf, advanced or basic, is helpful but not required
- The successful candidate will show proficiency in:
    - Ruby-on-Rails
    - HTML/CSS/Javascript
    - Git
    - Organizational skills
    - Experience of cloud environments
    - The desire to go above and beyond the task at hand
      Additionally, experience with Docker, Postgres and an eye for user-experience will make you a more compelling choice to the business.

Hiring Expectations, Location, Compensation:
- The position is expected to begin in May, ideally sooner if possible
- Located in Back Bay, Boston. OpenRounds has private office space on Newbury St. within a larger co-working environment. It is not required that the developer be in the office daily but it is expected that the developer would be there 1-2 days per week, especially when the company's Technical Advisor is available
- Compensation is hourly
