

Elizabeth Phalen
President
Data Protection Division
Dell EMC

Beth Phalen is President and GM of the Data Protection Division at Dell EMC. She is responsible for the data protection portfolio that includes Data Protection Suite, Integrated Data Protection Appliance, Recoverpoint and Data Domain. Beth is responsible for leading a global team to deliver Dell EMC's industry leading data protection portfolio to customers worldwide. In this capacity she oversees the engineering marketing and product management teams, drives the portfolio strategy and works closely with sales and global services to ensure successful end to end execution of the business. She is based in Dell EMC's office in Hopkinton, MA.

Beth joined Dell EMC through its combination at EMC where she served as Senior Vice President for Data Protection and Availability. During her seventeen years at EMC, Beth held leadership positions in a variety of product groups, including Management Software teams and multi-pathing SW. Prior to EMC, Beth was an architect in the Advanced Solutions group in IBM Global Services and spent twelve years as a software engineer at Digital Equipment. She has a BS in Computer Science from WPI and a MS in Computer Science from Brown University. Beth is a member of SWE; is on the board of directors for NACME (National Action Council for Minorities in Engineering) and is an active WPI alumni, including serving on the industry advisory board for the WPI Computer Science department and the WPI Women's Impact Network.
