

Help us with our MQP!

Come View and Rate Some Videos....

- Go to the Movie Lab
- Log onto the computer by typing *mpeg* for both the loginame and password.
- Run "Programs"->"User Study.exe"
- This experiment will take less than 10 minutes of your time.
- For more information please go to <http://www.wpi.edu/~lzhang/MQP>

Our MQP is to study how users view different types of Multimedia repair methodologies. We have created a Visual Basic user interface to display MPEG movies. These movies may be perfect or have been altered using different types of repair techniques. The user input will be collected and analyzed. The user information will point us to a better way of doing multimedia repairs.

Please be assured that your privacy will be respected. It is optional to enter in your real name and e-mail address in the VB user interface.

The Visual Basic user interface will be available in the Movie Lab (on the basement floor of Fuller, to your right when you enter the building through the glass doors). The VB user interface will be there from 3/27/2000 to 3/31/2000.

Please provide us with any feedback, such as comments or bugs, through email:

Brandon Ngo: bgno@wpi.edu or Lisa Lei Zhang: lzhang@wpi.edu

Thank you for your time and participation!
